

KORAX

— SYSTEMS —

ENGINEERED CORE RACK SYSTEMS BUILT FOR EXPLORATION. BUILT TO PERFORM.

Korax Systems provides portable and stationary steel core rack systems that are engineered for strength, designed for efficiency, and built to handle the demands of mineral exploration in any environment.

SMART DESIGN. REAL-WORLD RESULTS.

Every system is built with the field in mind—delivering durability, convenience, and efficiency from the first load to the last.

BUILT TO LAST

Heavy-duty steel construction for long-term durability in any conditions.

FAST & EASY SETUP

Simple components assemble in minutes with basic tools.

MODULAR & SCALABLE

Configure side-by-side or end-to-end. Expand as your storage needs grow.

EASY TO TRANSPORT

Lightweight components maximize payloads and reduce freight costs.

MADE IN CANADA

Proudly engineered and manufactured in Canada.

DESIGNED FOR THE WAY YOU WORK

MAXIMIZE STORAGE

Keep core organized, protected, and easy to access—improving productivity in the field.

OPTIMIZED COMPONENTS

Smart design reduces parts, simplifies handling, and speeds up assembly.

LOWER COSTS

Efficient use of space means more racks per load and lower transportation costs.

BUILT FOR ANY ENVIRONMENT

From exploration camps to core storage facilities, our systems are built to perform.

ENGINEERED & RELIABLE

All systems include engineered stamped drawings for confidence and compliance.

EASY TO TRANSPORT. BUILT FOR REMOTE OPERATIONS.

Our systems break down into lightweight, manageable components—ideal for remote exploration projects where air or ground transport is the most efficient option.

AIR FREIGHT READY

Ideal for fixed and rotary wing aircraft.

MORE RACKS PER LOAD

Efficient use of space maximizes capacity.

REDUCE COSTS & DOWNTIME

Lower shipping costs and faster mobilization.

MODULAR. FLEXIBLE. VERSATILE.

CONFIGURE SINGLE UNITS

CONNECT SIDE-BY-SIDE

EXPAND END-TO-END

Create the layout that fits your site and scale up as your program grows.

ENGINEERED FOR RESULTS

Purpose-built for the mining and exploration industry.

BUILT FOR THE FIELD

Designed with real-world conditions in mind.

FOCUSED ON YOUR SUCCESS

Reliable solutions that help you stay organized, efficient, and ahead.

PARTNER YOU CAN COUNT ON

Responsive service, quality products, and long-term support.

EXPLORATION DRIVEN

We understand your challenges—because we build for them.
